#### State of CA, CALTRANS DBE Program Good Faith Effort Summary

#### Outreach Efforts Summary / Narrative:

Bush Engineering identified the appropriate search engine to search for DBE subcontractors/suppliers for Repair Failed Areas and Place Rumble Strip. Bush Engineering attempted to post on the US Dept of Commerce MBDA bid matching system but due to website maintenance the system isn't available. Bush Engineering sent solicitation to Lamar Heystak with US MBDA who agreed to distribute to their constituents. When US Dept of Commerce MBDA distributes the opportunity those companies are notified of the bid opportunity and bid information. It cannot be determined how many of the companies that were matches are certified as DBE companies, however, the companies that were considered matches are either MBE or WBE companies that do work in the specified region and would potentially be certified and/or eligible to be certified as a DBE contractor. Bush Engineering also posted on the US SBA Subnet & DOT websites. US SBA Subnet's exposure is unknown but it is an industry practice to advertise DBE projects on the US SBA Subnet. Bush Engineering also advertised in two other Eldridge Bid Reporter publications that outreach to DBEs. Eldridge Bid Reporter publications have 3000+ distribution made up of DBE/DVBE & DBEs. DBEs are roughly 50% of the distribution. Bush Engineering then searched the appropriate DBE databases (CUCP) to identify potential DBE subcontractors/suppliers that performed the specified services. The Bush Engineering list contained 192 potential subcontractors/suppliers. Bush Engineering sent direct solicitations by fax to 57 potential subcontractors/suppliers that were located in a reasonable proximity to the project. Then Bush Engineering sent direct email solicitations to ALL 192 potential subcontractors/suppliers. Of those 192 potential subcontractors/suppliers, there were 0 emails that bounced (bad emails) and 0 companies declined the opportunity by unsubscribing to the email list. Bush Engineering followed up on two occasions by email at a later date with ALL 192 potential subcontractors and by phone with the DBE companies that were in close proximity of the project, as wells as, stayed in close contact with DBEs that had questions or had trouble obtaining the bid package. included:

- - Contacted local DBE assistance organizations to obtain a DBE list.
  - Solicited Potential DBE Subcontractors/suppliers by fax/email
  - Follow-up contact was made by both email & phone with potential DBEs to Confirm Interest/Lack of Interest in Opportunity
  - Continued Q & A with DBEs that had additional questions and wanted to provide a quote
- 1. Participation Achieved: DBE 18.2%

#### 2. Attendance at Pre-Bid Conference:
